

TOP QUESTIONS TO ASK WHEN YOU BUY SHIPPING CONTAINERS

1

WHAT ARE THE TERMS & CONDITIONS INVOLVED IN THE PURCHASE OF A CONTAINER?

Each country & city have their own regulations regarding container modifications. Inform yourself regarding the security code & building codes for plumbing, electricity, gas, construction, and more. Get informed regarding whether you have the right to turn your sea container into a building or office.

2

IS THE SHIPPING CONTAINER YOU HAVE IN MIND GOOD ENOUGH?

Try to inspect the container during the daytime, to ensure that you do not miss anything in the dark. Take the time to look inside, outside, examine the roof, the floor, and any changes to identify traces of mold, breakage and sealing.

3

WHAT TYPES OF CONTAINER MODIFICATIONS CAN WE DO?

Installation of pedestrian doors, roll-up doors, windows, insulation, electrical & heating systems, painting...We can modify new or used shipping containers for sale.

4

HOW IS THE CONTAINER DELIVERED?

Our shipping containers are delivered on flatbed trucks. The site of delivery needs to be prepared as follows:

- Ensure the area where the container will be going is relatively flat to have the same level, in the front and back, especially for 40' containers.
- Ensure the delivery area is free of obstacles (electric wires & tree branches).
- Put the containers on 6"x6" x2" wooden blocks to protect the floor.

Conteneurs S.E.A delivers your containers within a few days.

5

HOW ARE THE CONTENTS OF MY STORAGE CONTAINER PROTECTED?

Use heavy duty padlocks made with hardened steel & lock boxes to make it very difficult to cut the padlocks.

Add a standard alarm system if the container is kept close to a building. Otherwise a GSM alarm will be the right option.
